

INSPECTOR GENERAL

76-0714

19 MAR 1976

Executive Registry

76-7504

MEMORANDUM FOR: Director of Central Intelligence

FROM : Donald F. Chamberlain  
Inspector General

SUBJECT : Visits to U.S. Nuclear Installations

1. It is likely that you will have to participate, as have your predecessors, in a variety of problems involving nuclear energy. In addition to estimative judgments, these problems include U.S. activities to deter nuclear proliferation, arms control negotiations dealing with nuclear weapons and weapons testing, and international economic and energy problems with important nuclear aspects.

2. I believe you would find background information obtainable from brief visits to a few selected U.S. nuclear installations both valuable and interesting. A table is attached of those most pertinent to your information needs. I suggest that you consider inclusion of visits to such installations whenever other business takes you into appropriate areas.

STATOTHR

Donald F. Chamberlain  
Inspector General

Attachment  
Table

SELECTED U.S. NUCLEAR FACILITIES

<u>FACILITY</u>	<u>NUCLEAR ACTIVITIES OF INTEREST</u>	<u>NEAREST MAJOR AIRPORT</u>	<u>MINIMUM TIME NEEDED, INCLUDING TRAVEL TO AND FROM AIRPORT</u>
Lawrence Livermore Laboratory (LLL)	Weapons Design Weapons Museum Controlled Fusion Machines	San Francisco	1/2 day
Nevada Test Site	Nuclear Weapon Testing	Las Vegas, Nev.	1 day
